Luxe

What's life without
a little luxury?

A range of luxurious tiling profiles to add glitz, glamour and a premium finish to your installation.

With plated stainless steel, chrome plated aluminium with crystals by Swarovski and solid brass we have the exclusive look covered to achieve the Perfect Finish.

The Swarovski range can also be applied to any colour profile to complement your design, please ask for details.

Introducing...

Luxe

Luxurious tiling profiles to add glitz & glamour

A range of luxurious tiling profiles to add glitz, glamour and a premium finish to your installation.

The Swarovski range can also be applied to any colour profile to complement your design, please ask for details.

NOTE: Crystals by Swarovski are not suitable for commercial installations or in wet areas

Swarovski Crystals

Triple Crystal on 101 Chrome Effect TDP

Code	Size	Length (m)	Finish

For standard EQQ see page 103

Beautiful finishing
profiles, the icing
on the cake!

Our range of solid brass profiles are suitable for both domestic and commercial areas. Solid brass is extremely hard wearing and provides a truly unique finish.

Solid Brass

Square Edge

ESB127	12mm	2.7	87

Metal Trim

The Genesis range of metal profiles is without doubt one of the most comprehensive available, covering round, straight, square and even triangular profiles that suit most domestic and commercial applications. Formable options are also available in aluminium and stainless steel. Genesis now has over a hundred different metal corner pieces in various sizes and finishes to create the perfect installation.

Spacers

Our spacer range has a varied format to suit most needs. From the small bag through to the large, extremely popular, bucket container.

All spacers are injection moulded for precision and the individual spacer is separated after the moulding process to allow faster use when tiling.

SiRiGuide

The single sliding guide in aluminium - available in different lengths are lightweight and stable. They are fitted with two or more cups depending on length. The suction cups are fitted on a frame so that it can be put in exactly the position wanted on the sliding guide and may also be used as a reference for measurements of the cut.

The modular sliding guides in aluminium - available in different lengths are equipped with an internal system for connecting to the various modules with either male or female connectors. The modules facilitate handling/transporting and each one comes with two suction cups. These cups are fitted on a frame and their position can be adjusted on the guide.

Drilling

- Collects dust and water while drilling
- Flexible rubber gasket that maintains the connection with a vacuum nozzle (diameter of 25-35mm)
- Suction that seals even on uneven surfaces
- Accommodates hole saws up to 72mm
- Supplied with adaptor for connecting to vacuum cleaner

Turbo Drilling

Collects dust and water when drilling while acting as a guide, suitable for drilling up to Ø 72mm.

Simply connect to a vacuum cleaner with the nozzle diameter of 25-35mm, the air is channelled producing a seal against the Tile.

- Flexible rubber gasket that maintains the connection with a vacuum nozzle (diameter of 25-35mm)
- Suction that seals even on uneven surfaces
- Suitable for drilling up to 14-72mm hole saws
- Supplied with adaptor for connecting to vacuum cleaner

Cutting

This dust extraction adapter is specifically designed for use with angle grinders.

Simply connect the adapter to a regular household vacuum cleaner, keeping the work area clean, whilst preventing any damage to your tools and your health.

- Collects dust when cutting with an angle grinder
- Flexible rubber gasket that maintains the connection with a vacuum nozzle (diameter of 25-35mm)
- The unit itself comes complete with a guide slot for precise cutting and bushings to suit most common angle grinders
- Suitable for blades with a diameter of 100-125mm
- Supplied with adaptor for connecting to vacuum cleaner

Mosaic Mesh

An innovative product which solves the problem of fixing mosaic tiles.

Makes mosaic fixing fast and simple

- A 300 x 300mm rigid plastic mesh
- Optimum design allowing maximum adhesive coverage and performance
- Self adhesive back to stick to the underside of your mosaic sheet giving complete support
- 3mm thick adds no significant thickness to your mosaics
- Cut with a knife or scissors to desired size

Also used to pack out thin mosaics when used as borders to enable them to be the same thickness as the wall tiles.

All mosaics are equally spaced and straight.

Code	Description	Box
660	Counter top Display Box Contents 100 sheets	6

Marketing

A vast range of eye-catching marketing materials are available to help promote your Genesis products, from robust display stands that offer an excellent way of displaying full length trims to smaller point of sale displays. Promotional items that help to represent the Genesis brand by combining functionality with advertising with such items as mugs, pens, calendars, note pads etc.

**Bespoke marketing materials
are available on request.**

Z103 1m Maxi Stand

- 24 hooks (clips onto top of stand 2 x 12) suspends profiles
- 10 euro hooks (for tools or corner pcs)
- Divider bar clips onto back to divide profiles
- Each hook holds on average 10 profiles
- 50/50 Split 120 profiles and tools
- 240 profiles

Code	Description	Qty
Z103	1m Genesis Display	1
Z112	Euro Hooks (double prong)	10
Z151	Replacement Header	1

Z100 Mini Stand

- A bespoke unit to display the Genesis range of tools
- A simple grid system to display products
- Supplied with a display tray and 20 euro hooks
- Ideal for hanging tools
- 15 profile location points

Code	Description	Qty
Z100	Tool Stand	1
Z112	Euro Hooks (double prong)	10

Z110 1m Deluxe Stand

- Grid unit with squares for Euro hooks, complete with 12 Euro hooks, 4 dividers and integral price tags
- Rubber mat and specially strengthened base ideal for Metal profiles
- Profiles are simply leaned against the back of the display and rested on the rubber mat on the base
- Works on its own or combined to form a run of displays for larger showrooms
- Dividers create 18 sections on this display
- Each section holds on average 20 profiles depending on the profile shape and size
- The display unit can also be slit 50/50 to display 9 divided sections of profiles and then use the euro hooks to display tools on the other half of the stand. If used this way the stand will hold approximately 180 profiles
- If all 24 divider spaces are used approximately 360 profiles can be displayed
- Complete assembly instructions are included with each display stand

Personalised Samples Panel for Z110

A brand-new stand attachment is available for the Z110, offering an installed vision of the 4 profile designs offered by Genesis; Triangular, Square, Straight and Round. The Z109 also acts as a sales aid for highlighting and upselling the use of corner pieces to clients and homeowners allowing them to keep their options open on design and finish.
