GROHE BAULINES

Sharing the same ideals as the influential Bauhaus design movement – that form and function should work together – the Baulines range from GROHE fuses bold design and high-quality materials with the latest German manufacturing techniques at competitive price points.

GROHE faucet and shower collections fuse high-end design with the latest technology and advanced manufacturing techniques. A wide choice of designs ensures compatibility with all styles of interior and all types of basin.

To help you choose the fittings best suited to your preferred interior style, GROHE has identified three style segments: Cosmopolitan, Contemporary and Authentic, each with a distinct look and feel. From the geometric lines of BauEdge to the softer aesthetic of BauClassic, there's a collection to meet your requirements and enhance your bathroom.

Each collection features a range of faucets for the basin, bath and bidet and is completed by a choice of shower solutions. This comprehensive offering ensures style continuity throughout the bathroom, enabling you to create a space that is aesthetically pleasing and comfortable to use.

GROHE ENJOY QUALITY.

GERMANY'S NO. 1 BRAND

For over seventy years GROHE has been manufacturing superior quality faucets and sanitary fittings. Our products have won numerous design awards and are acknowledged internationally for their reliability, durability and performance.

GROHE is Germany's premier sanitary fittings brand and a world-leader in the bathroom market. We carefully select the finest materials and manufacture to the highest German standards to deliver the best European designs to a global audience.

Ongoing investment in research and development enables us to actualize world-leading technologies for the bathroom industry. Our products are designed to last a lifetime and are subjected to rigorous internal and external tests to guarantee their longevity. Our internal life-testing center surpasses industry standards. All products are tested to ensure they exceed the expectations of our customers and outperform our competitors.

Quality, technology and design are central to everything we do. We take pride in the performance of our products and offer a 10-year guarantee on all functional parts. This guarantee demonstrates our commitment to delivering a lifetime of unique user experiences to our customers.

Since the company was founded in 1936, GROHE has opened 26 subsidiaries across the world, invested in six factories and sold over 300 million faucets. This global network allows us to respond to the specific needs of each country to create market-relevant products that fuse advanced German manufacturing techniques with user-centric designs.

GROHE HISTORY OF INNOVATION.

1936

Friedrich Grohe establishes business in Hemer, Germany (1)

1948

Launch of Atlanta a classic of German faucet manufacturing (2)

1956

Launch of GROHE thermostats
Introduction of the first thermostat for the residential market (3)

1961

Opening of first foreign subsidiary, GROHE France

1965

Launch of GROHE Moen, the first single-lever mixer faucet (4)

1975

Opening of GROHE America subsidiary

1979

Launch of Relaxa hand shower (5)

1983

Launch of Eurodisc, the first GROHE faucet with a ceramic cartridge (6)

1997

Opening of the GROHE Design Center (7)

2001

Launch of GROHE Atrio faucet collection (8)

2001

Opening of GROHE China

2005

Launch of GROHE Rainshower® (9)

2006

Opening of GROHE India

2008

Launch of GROHE Ondus® collection of digital showers and faucets (10)

PEOPLE WHO CHANGE THE WORLD THROUGH DESIGN

In June 2011, it was announced that Paul Flowers and the GROHE Design Team had been selected to receive the highest accolade in the field of product design – the red dot ‘design team of the year’ 2011. Recognised globally as a mark of distinction, GROHE is the first company in the sanitary industry to be honoured with the award since its introduction in 1988.

The award is presented annually to “international design teams which continuously produce innovative work.” And with the list of previous recipients reading like a veritable who’s who in the world of design, GROHE is in good company. Apple, Bose, Mercedes-Benz, Siemens and Sony are just a few of the big names to have won the award.

Since his appointment in 2005, Paul Flowers has led the GROHE in-house design team to phenomenal success. Rather than outsourcing to ‘celebrity’ designers, we have chosen to invest in creating a world-class design team of our own – an international mix of industry specialists whose understanding of the market is second to none.

The presentation of a red dot ‘best of the best’ award for GROHE Ondus® in 2007 was the first hint to the industry that design was now a fundamental brand pillar, in addition to quality, technology and sustainability. The total red dot award count now stands at an impressive 15 – including three further ‘best of the best’ awards for GROHE Ondus® Digtecture (2009), the Rainshower® Icon hand shower (2010) and the new Digital Controller (2011).

This commitment to producing the most relevant and inspiring designs in the sanitary industry has also resulted in GROHE advancing 104 places in the annual iF company ranking – the biggest gain in this classification, while awards from the USA, UK, China and Japan illustrate the international appeal of our portfolio.

But perhaps one of the most significant shifts to have occurred in the last five years is the way in which creativity has been used not only to develop products that add value, but also as a catalyst to change the entire culture of the company.

“For many years the company’s top management has demonstrated its commitment to excellent design and provided Paul Flowers with the support he needs to come up with innovative, surprising and aesthetic solutions and to bring outstanding products to the market time and again.”

Prof. Dr. Peter Zec, CEO “of the red dot design award”

GROW OLD TOGETHER. ENJOY QUALITY

At GROHE's life testing laboratories in the Black Forest, our products are put through their paces and shown no mercy. Here, our fittings, thermostats and all the components that go with them have to endure the simulated effects of 20 years' daily use – with especially hard water. That we outperform our own as well as international quality standards in the process pays dividends – and it shows. GROHE quality goes well beyond an article's normal life cycle and, should a certain product be discontinued, replacement parts remain available for a period of ten years.

Also in independent tests overseen by rigorous juries, our fittings and thermostats sparkle. In a durability test conducted by German testing and inspection services provider TÜV SÜD, GROHE's Eurodisc won the day against nine other prestigious competitors. Thanks to GROHE SilkMove® technology that ensures incomparably smooth and easy operation in all of our single lever mixers.

In a survey by LGA Qualitest GmbH, our Grohtherm 3000, 2000 and 1000 thermostats each took first place among 17 thermostats from European manufacturers. Thanks to GROHE TurboStat® and GROHE CoolTouch®, our Grohtherm 3000 even came out overall winner with top scores in four categories. And since we ourselves are pretty proud of our achievement, we'd also like to mention that the GROHE plant at Hermer, Germany, was among the winners of the "Die beste Fabrik" ("Best Factory") competition organised by leading business magazine WirtschaftsWoche – for production and logistics, for customer focus and innovation.

The GROHE plant in Hemer emerged as one of the winners of the "Die beste Fabrik" ("Best Factory") competition organized by leading business magazine WirtschaftsWoche. A high-caliber jury composed of scientists and experts evaluated all processes from the production floor to the supply chain, with the GROHE factory scoring excellent results particularly in terms of customer orientation and innovation.

The GROHE factory in Hemer, was recently awarded Top Factory status (Die Beste Fabrik) in a competition organized by German business publication WirtschaftsWoche.

GROHE COSMOPOLITAN STYLE

Influenced by Minimalism and modern architecture, the Cosmopolitan bathroom is a meticulous balance of design and functionality. Faucets and fittings pay homage to geometric shapes and feature the latest advanced technology. Large format tiles in shades of grey continue the architectural mood, creating a backdrop for capacious walk-in shower areas. Concealed bathroom fittings, where only the essential elements are on display, are key to realizing a space that is Cosmopolitan in its design and enjoyable to use.

GROHE BAULOOP AND BAUEDGE

Sharing the same ideals as the influential Bauhaus design movement – that form and function should work together – BauLoop and BauEdge fuse bold design and high-quality materials with the latest German manufacturing techniques. Both collections offer a range of faucet and shower solutions designed to enhance the latest Cosmopolitan bathroom styles. Extra-high spout basin mixers complement the current trend for freestanding vessel basins, while the eye-catching design of the shower system unites a hand shower and a head shower for an enhanced showering experience.

GROHE BAULOOP

Designed to enhance the purity modern architecture, BauLoop brings lightness to its surroundings through its striking loop-shaped lever handle and cylindrical body. Featuring the signature GROHE design elements, the collection carries its minimalist design ethos over a number of draw-off points and includes a faucet for vessel basins.

GROHE BAUEDGE

Consistent use of lozenge shapes, lends an air of balance and harmony to BauEdge. The modern silhouette of the lever handle is pitched at an angle of seven degrees for comfortable use without compromising the clarity of its form, while a comprehensive range of faucets and showers ensures this sophisticated design meets your design requirements.

GROHE CONTEMPORARY STYLE

Contemporary-style design unites clean looks and practical features to create an inviting bathroom perfect for families. Faucet and shower designs in sparkling chrome feature softer lines and easy-to-use features which harmonize with a neutral palette of cream, beige and white to create a welcoming environment. The result is a functional and comfortable space that is designed to withstand passing trends and last a lifetime.

GROHE BAUCURVE AND BAUFLOW

Baulines faucet collections are the perfect balance of contemporary design and German engineering – a precise mix of form and function that ensures years of carefree use. The dynamic, eye-catching profiles of BauFlow and BauCurve will visually enhance your bathroom with their contemporary appeal, while bringing a host of practical and user-friendly features to the space. Both collections offer a complete range of products across all draw-off points and include a choice of showering solutions.

GROHE BAUCURVE

Sweeping lines and a softer aesthetic are key to creating a comfortable and contemporary bathing space. The dynamic design of BauCurve entices interaction through the confident execution of its fin-shaped lever handle. Arcing towards the user, it gives effortless control over the water flow and temperature ensuring perfect delivery for years to come.

GROHE AUTHENTIC STYLE

Inspired by classical architectural details and traditional interiors, Authentic-style faucets and showers combine the design aesthetics of the past with up-to-the-minute technology. Developed to enhance period-style sanitary-ware and baths, decorative accents create a refined atmosphere when paired with rich colours and luxurious finishes. Three-hole basin faucets are the perfect choice for an Authentic bathroom – traditional in style yet comfortable and convenient to use thanks to the latest German manufacturing techniques.

GROHE BAUCLASSIC

Refined and authentic, the BauClassic faucet collection effortlessly blends a traditional aesthetic with 21st century engineering. Fluted detailing at the base of the faucet body and the spout brings an air of elegance to the design and is repeated at the end of the slender lever handle. The collection includes a three-hole basin mixer to ensure a harmonious match with period-style basins.

GROHE SHOWERS

German innovations have always been a driving force behind the success of GROHE showers. GROHE has been producing its innovative showers and shower engines in Lahr, in Germany's Black Forest region, since the late seventies. Each GROHE shower therefore benefits from the wealth of the company's accumulated shower knowledge. From injection moulding, welding and galvanising of plastic components to assembly, quality inspection and packing – proven expertise and diligent work at every stage of the process are key to the high quality of GROHE showers. This is what the GROHE factory in Lahr is all about – for the benefit of consumers around the world.

GROHE NEW TEMPESTA THE SPRAYS

Our unique design distributes the same amount of water to each and every nozzle, resulting in an even spray. So whatever pattern suits your mood – Rain, Rain O², Jet or Massage – you're guaranteed that it will be an all-over exhilarating experience.

Rain spray

Wide and luxurious – a soft, delicate pattern to soothe the skin. Mimicking warm summer rain, the spray provides a full and even coverage.

Jet spray

A focussed circular spray, which delivers a refreshing burst of water. Ideal for stimulating the skin or simply cleaning the bathtub or shower.

GROHE Rain O² spray

A soft, smooth spray based on our original Rain spray. Water drops are infused with air for a wide and fuller spray.

Massage spray

A pulsating spray pattern for a stimulating massage. Gives the unique and invigorating all-over massage.

GROHE NEW TEMPESTA 100

Created to enhance the latest contemporary bathing spaces and to complement a wide selection of GROHE faucet collections, New Tempesta 100 combines the performance of GROHE DreamSpray® technology with stylish looks and practical features.

An anti-shock silicone ring, which wraps around the spray plate of the hand shower, prevents damage to the shower tray or bath if the shower is dropped, making the design an ideal choice for families with young children.

GROHE NEW TEMPESTA RUSTIC 100

New Tempesta Rustic 100 balances a traditional aesthetic with modern technology. The classic shape of the shower head is complemented by a bevelled detail which surrounds the spray face and is repeated on the handle.

Inside, GROHE DreamSpray® technology ensures the water is equally distributed to all shower nozzles, for an exhilarating experience every time.

GROHE BAU KITCHEN

Sharing the same ideals as the influential Bauhaus design movement – that form and function should work together – the Baulines range from GROHE fuses bold design and high-quality materials with the latest German manufacturing techniques at competitive price points.

GROHE treats the kitchen with the respect it deserves. It's so much more than just a workspace. It's where you spend most of your time, it's the heart and soul of your home and it's often furnished to a correspondingly high standard. That's why GROHE kitchen faucets deliver more than you expect in every respect. The workmanship, durability, innovation and design will satisfy more than just those with an appreciation for beauty.

GROHE BAU KITCHEN

Water is used for cooking the world over. We need running water in the kitchen up to 90 times each day. We take it so much for granted that we often don't think of water when we hear the word 'kitchen'. We think of well-filled refrigerators, aromas wafting from the oven and of tables laid ready for dinner. But we forget what works hardest in the kitchen: the kitchen faucet. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That's why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen faucets.
